GREEN POLICY DOCUMENT

The institution retaining a green and healthy environment which is located in the out skirts of the city. Essential efforts are taken to conserve Carbon dioxide neutrality by planting more trees and plants of different varieties to cherish an eco-friendly green campus. It is beautifully landscaped environment by its ambience shall capture the interest of the students and visitors.

Some of the measures taken for a clean and eco-friendly environment are:

a. Mode of Transport

Students are advised to use bicycles by means of transportation to College. Separate parking space is provided for bicycles. Common transportation facilities are given to the students.

b. Plastic-free campus

Usage of plastic is prohibited inside the campus.

c. Carbon neutrality

Carbon offsetting office enhanced to prevent carbon emissions from the printers.

d. Rainwater Harvesting

Recharge wells are installed for proper rain water accretion and absorption.

e. Green Cover Management

The college establishes and promotes green activities that will support a greater extent of green coverage and improving environmental awareness,

f. Carbon Management

The college will assure the minimizing of greenhouse gas emission and implement a carbon management strategy and utilize energy capably.

g. Energy Management

The College will ensure the consumption of low energy by installing LED bulbs and super fans and is supplied with solar energy.

h. Water Management

The College ensures resourceful and environmentally responsible for the importance of water. The harvested rain water is recycled and use for maintaining green campus.

i. Waste Recycling and Reduction

Based on reduce, reuse & recycle principles, the College makes sustainable resource management practices and needed steps will be taken to diminish the impacts on environment through proper disposal of wastes such as plastics and e-waste materials. Indeed, the campus has been already implemented to use eco-friendly cups/ plates and glasses in the Cafeteria.
